

Accredited Level 2 Surrey Care Certificate

In collaboration with Surrey Heartlands Health & Social Care Academy we have developed an **accredited** Level 2 Surrey Care Certificate with OCN-London. Students receive weekly lessons in the classroom for 7 weeks along with practical workplace assessments & will achieve a Level 2 qualification. They will also be required to attend 2 additional training days for Moving and Handling and First Aid at Work (If they don't already have a valid certificate for these). Students need to complete a knowledge portfolio and have a work place assessor who is able to carry out their practical assessments with them. Upon successful completion students may be able to progress onto an accredited Level 3 Extended Care Certificate Project.

The benefits of this accredited Care Certificate programme include:

- Intensive & interactive training in the classroom allowing students to build deeper knowledge of care work & share good practice.
- Greater recognition of the care profession
- Support for students to build up a portfolio of evidence & develop valuable study skills
- A robust quality assurance process reassures employers that students have reached the required level of competency
- Students will be encouraged to research career development opportunities leading to a sustained care sector workforce
- Support to plan holistic assessments, saving time in the workplace
- The Care Certificate can be achieved within a shorter period of time
- An accredited Care Certificate which is portable across employing organisations within Surrey

For the Autumn programme, due to start in **September 2024** in Leatherhead we are looking to recruit students who are working in Care. There is **no cost** to the employer or the student for this course and we are able to pay backfill costs to employers (max of £735) plus travel expenses (max of £100) per student. Please email: adults.academy@surreycc.gov.uk for further information or complete the application form and email this to the academy. **Closing date for applications: Friday August 30th.**
